

## Community Health Bugaloo

By Jack Sills, Jr.  
Great Body Shop 3<sup>rd</sup> grade December Unit

We live in a place that keeps us **safe**  
It's called a **community** . . . in your face!

There are laws and rules  
To keep us **safe** and **healthy**  
Stay in school, get a job  
And we might get wealthy

Living, working, going to school  
Doing the **community** bugaloo

**Pollution** is gross  
It can make us say, "Ick!"  
**Chemicals** and **garbage**  
These pollutants make us sick

Living, working, going to school  
Doing the **community** bugaloo

There are **safety helpers**  
They do a good job  
**Police, teachers,**  
And a **crossing guard**

Living, working, going to school  
Doing the **community** bugaloo

The things we don't want  
Don't throw them away  
**Recycle, reuse**  
That's the best way

Living, working, going to school  
Doing the **community** bugaloo

We live in a community that keeps us **safe**  
It's called a **community** . . . in your face!
